REPLY TO
ATTN OF: RD

SUBJECT: Project Rand Semiannual Report 1 January - 30 September 1976

TO: See Distribution List

1. The Air Force's Project RAND (now called Project AIR FORCE) with The Rand Corporation has for many years provided us with independent, objective and useful research covering a broad spectrum of topics and issues.

2. Every six months Rand prepares an Administrative Report that summarizes the research findings and activities for that period. The Air Force Advisory Group for Project AIR FORCE, composed of general officers and chaired by me, has found these reports very useful in evaluating the Rand research effort and its continuing relevance to major Air Force needs. I thought you might like to see the recent Project RAND Semiannual Report covering the period 1 January to 30 September 1976 (9 months this time because the T-period is included), and a copy is enclosed for your information and reference.

3. If you desire further information on any of the research covered in the report or wish to discuss Project AIR FORCE in more detail, please contact my office.
